

519 SERIES

FEATURES

- All motors 100% load-tested** on our in-house dyno
- Runs with most variable speed drives** on the market
- Generous CT line clearance**

BENEFITS

- Engineered & manufactured in Texas
- High efficiency
- CapEx & OpEx savings
- Modular horsepower & rugged dependability
- Low carbon footprint
- Universal PMM options for all OEMs
- Experienced oil & gas team
- Boots on the ground in Permian Basin
- 67% more production over a 375 induction motor system
- 40% reduction in CapEx/bbl
- Up to 26% reduction on electrical LOE

REYNOLDS
LIFT TECHNOLOGIES

519 SERIES PMM - 7" CASING

-  POWER TO 1000HP
-  450°F / 230°C WINDING RATING
-  IN-BASIN SUPPORT
-  ALL MOTOR CONFIGURATIONS ALWAYS IN STOCK

TECHNICAL SPECIFICATIONS

| HP | VOLTS | Amps | LENGTH (FT) | kVA |
|------|-------|------|-------------|-----|
| 270 | 2019 | 77 | 5.7 | 269 |
| 540 | 4038 | 77 | 10.9 | 538 |
| 1000 | 4431 | 125 | 16 | 958 |

Reynolds Permanent Magnet Motors (PMM) outperform traditional induction motors with a compact, high-power design. Our patent-pending technology features proprietary magnets, optimized winding, and modular connections for ultra-efficient performance, lower power consumption, reduced heat, and extended lifespan.

READY SUPPLY

Designed and built in Houston, TX, Reynolds motors are rigorously tested to ensure reliable performance. With strategically located service centers throughout the Permian Basin, we maintain inventory on hand and can quickly deploy resources to meet customer needs.
